Seating for your space

Explore fixed and movable seating styles for schools, auditoriums, theaters, lecture rooms, and multipurpose facilities. Start with the room, the audience, and the way the space needs to work.

Fixed auditorium seating

Compare upholstered chairs, wood finishes, arm styles, and seating profiles.

Lecture and classroom seating

Explore seating with work surfaces and layouts for teaching and presentations.

Flexible seating

Consider movable or stacking designs where room use changes throughout the day.

Auditorium seating

A selection of upholstered designs with different back shapes, arm treatments, and visual profiles.

Maxwell Summit

Sculpted back and arm styling.

Maxwell Crest

Rounded upholstered form.

Maxwell Horizon

High-back silhouette.

Maxwell Meadow

Soft contours with wood accents.

Ask Maxwell Athletics to confirm available configurations.

Wood and upholstery

Coordinate the seating design with the room: compare wood accents, enclosed sides, and upholstered finishes.

Maxwell Heritage

Wood-accented seating profile.

Maxwell Linear

Enclosed side-panel design.

Maxwell Vista

Clean panel styling.

Maxwell Edge

Contemporary box-shaped form.

Final finishes and product details are confirmed with your quote.

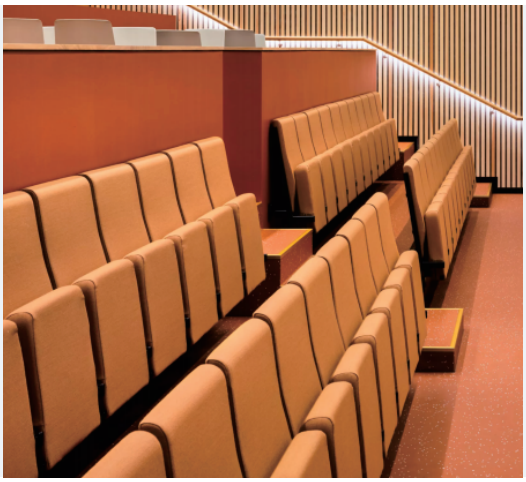

Slim seating profiles

Explore slim back designs and compact visual profiles. Final seat depth and row spacing require model-specific drawings.

Maxwell Stride

Slim upholstered seating.

Maxwell Stride

Wood-accented auditorium example.

Maxwell Focus

Lecture-style seating example.

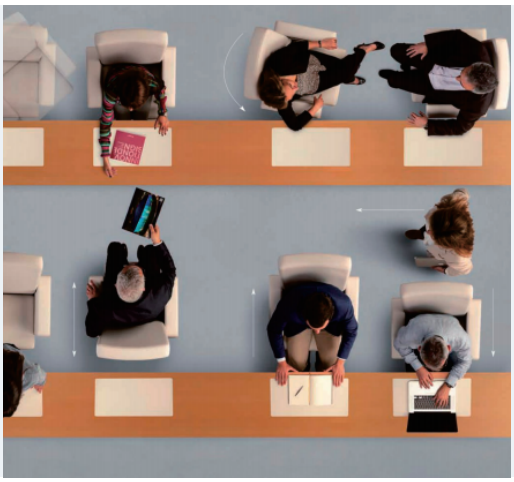

Maxwell Axis

Simple upholstered profile.

Room clearances must be checked against the final seating layout.

Lecture room seating

Consider the relationship between seating, writing surfaces, circulation, and the instructor sightline.

Maxwell Scholar

Learning-space layout example.

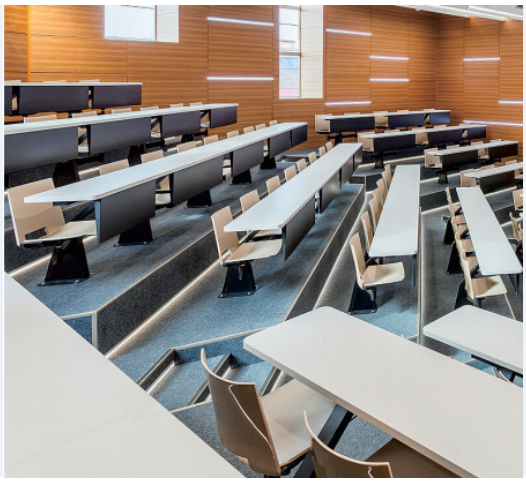

Maxwell Beacon

Seating and continuous work surfaces.

Maxwell Mosaic

Row seating with work surfaces.

Maxwell Forum

Lecture-room layout example.

Writing surfaces and mounting details vary by configuration.

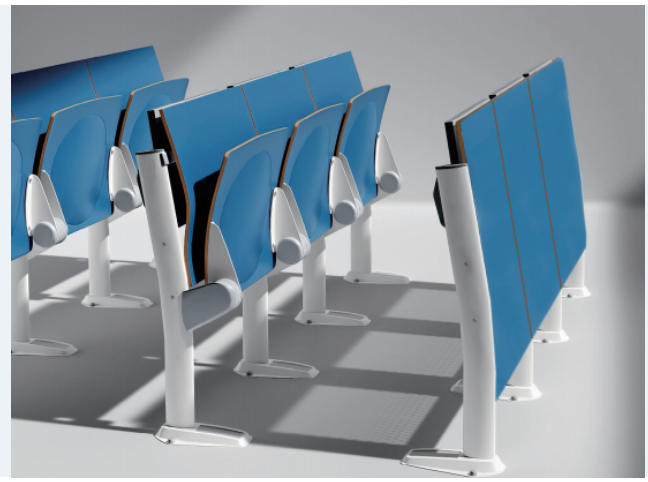

Molded seating styles

Compare shell shapes and wood or color treatments for education and presentation spaces.

Maxwell Mosaic

Wood-look shell example.

Maxwell Mosaic

Blue shell seating example.

Maxwell Mosaic

Wood-look seat and back.

Maxwell Mosaic

Color shell with metal supports.

Shown colors are examples; request current finish samples.

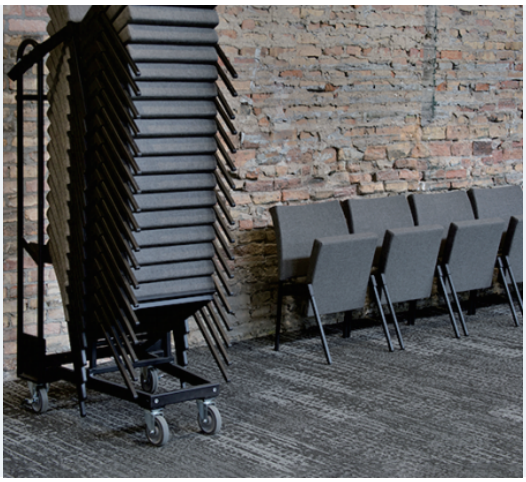

Movable seating

Explore seating styles for rooms that host different activities. Ask about moving, stacking, and storage requirements for the selected model.

Maxwell Flex

Freestanding upholstered design.

Maxwell Gather

Movable seating arrangement.

Maxwell Gather High

High-back freestanding design.

Stacking options

Storage examples shown in the source.

Stacking capacity and cart compatibility require confirmation.

Chairs and learning furniture

Select complementary furniture for classrooms, meeting spaces, and multipurpose rooms.

Maxwell Link

Simple freestanding chair design.

Maxwell Link Row

Connected seating example.

Maxwell Link Study

Chair and desk example.

Chair collection

Upholstered and stacking examples.

Request a coordinated quote for the furniture your room needs.

Plan in feet and inches

Send a room plan or measured sketch to Maxwell Athletics. Use feet and inches for the room and clearances, and inches for individual seat dimensions.

Room length	_____ ft _____ in
Room width	_____ ft _____ in
Ceiling height	_____ ft _____ in
Stage or screen width	_____ ft _____ in
Desired seat count	_____
Existing row spacing	_____ in
Door and aisle locations	Mark on the room plan
Steps, slopes, and floor type	Show on the room plan

Seat width, seat depth, overall height, mounting locations, and row clearances will be confirmed in model-specific drawings. No unverified product dimensions are presented in this brochure.

Build your seating request

1 Tell us about the project

Share the facility name, location, room use, target seat count, and desired completion date.

2 Choose a design direction

Identify the designs you like in this brochure. Include preferences for upholstery, wood accents, arm styles, and work surfaces.

3 Send the room information

Provide drawings or a sketch with measurements in feet and inches. Show entrances, exits, aisles, stage locations, steps, and floor conditions.

4 Review the proposed configuration

Confirm the selected model, finishes, dimensions, mounting approach, project scope, pricing, and schedule before placing an order.

Product photography illustrates design options. Model availability, specifications, finish choices, and installation requirements are confirmed for each project.

LET'S PLAN YOUR SPACE.
